Ikoma

HYBRID

The best of both worlds

*The foundation of your design
will always be there for you
when you select your new
floor from our Ikoma Hybrid
flooring collection.*

Ikoma, meaning to rely on, is a 6mm Hybrid floor that can be installed in any area of your home. The collection has a 100% waterproof surface which means that it is suitable for installation in wet areas (excluding shower bases). Plus, Ikoma has a Class Rating of 23, so it is also suitable for use in even the highest traffic zones of your home. In other words, Ikoma will always be there for you.

All floorboards within the range come with a pre-adhered underlay, making them acoustic compliant and a great choice for those who want a quieter home. They're also phthalate free and low VOC meaning they can help you create a healthier environment within your space. Plus, all flooring options within the Ikoma Hybrid flooring collection are backed by a Lifetime Domestic Warranty, so you can sleep well at night with the peace of mind that your floors are covered.

In terms of design, we've got eight stylish decors in the lineup for this Hybrid flooring collection, so you're sure to find one that suits your preferred interior style, and all options provide true-to-life detail with a woodgrain feel, so you really do get the best of both worlds.

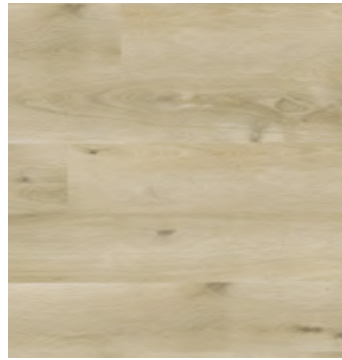

Enjoy the cool, light greys of Rift Oak if you're after gentle neutral tones, keep things warm but bright with Bisque Oak, or bring depth to your space with the dark brown shades of Carob Oak. If you're after a more Australian native inspiration, we also have Northern Blackbutt and River Spotted Gum available, providing both light and dark flooring options respectively.

River Spotted Gum IKO202

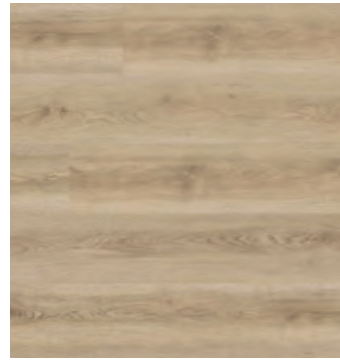

Featuring a 6mm phthalate free construction, Ikoma is a Hybrid flooring collection made up of eight stylish decors. These low maintenance floors have a waterproof surface and are acoustic compliant with a pre-adhered underlay, making them a great choice for any room of the home. Plus, thanks to true-to-life detail and woodgrain embossing, Ikoma Hybrid floors effortlessly mimic the look and feel of natural timber.

What is Ikoma?

Ikoma is our 6mm Hybrid collection of floors with a cause. Available in eight stunning decors, and a 1220mm long construction, our Ikoma floors are crafted from the below components:

Wear Layer

Embossed to provide the feel of real timber with the added strength to stand up to the unpredictability of real life!

DesignDefence Coating

UV cured to provide additional protection against general wear and tear.

Imagine Floors Decor

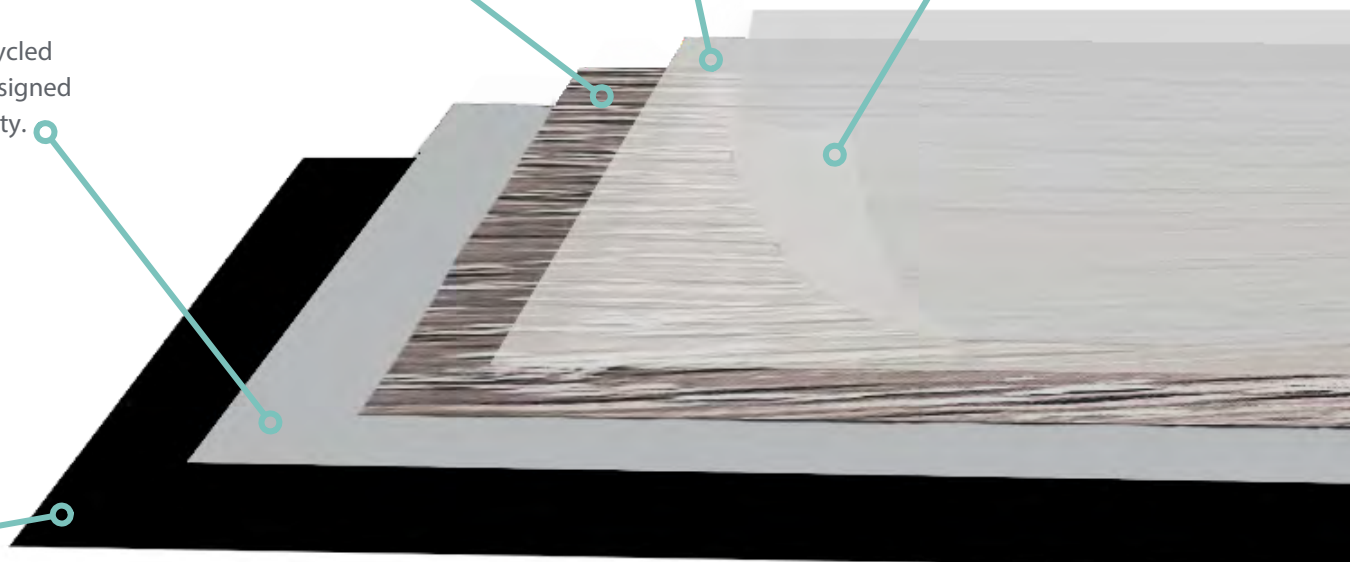

Natural design to provide true-to-life detail of authentic timber.

Base Layer

Crafted from recycled materials and designed to provide stability.

Acoustic Underlay

To provide excellent sound absorption and comfort underfoot.

What are the benefits of Ikoma Hybrid?

5G is a click lock system for floating floors that creates a superior connection between individual floorboards and makes the installation process quick and easy.

ACOUSTIC COMPLIANCE

The Ikoma collection of Hybrid flooring comes with a pre-adhered acoustic underlay on all floorboards. This means that the floors arrive acoustic compliant for most situations.

WATERPROOF SURFACE

The Ikoma collection has a waterproof surface and Hybrid construction which makes it suitable for installation in all areas of the home, including wet areas*.

WOODGRAIN FEEL

The woodgrain embossing on these floorboards provides a natural feeling and texture when they are touched. This, coupled with their true-to-life décor, makes for a realistic flooring option.

PHTHALATE FREE

The Ikoma collection of Hybrid flooring is phthalate free and low VOC making it a better choice for the environment, and a healthy option for your home.

FLOORSCORE CERTIFIED

The Ikoma collection of Hybrid flooring is Floorscore Certified. This means that floors within the collection are better for both people and the planet as they meet strict indoor air quality standards.

CLASS RATING 23

With a class rating of 23 the Ikoma Hybrid flooring collection is tough enough to be installed in even the highest traffic areas of the home.

LOW MAINTENANCE

The Ikoma collection is designed to be low maintenance and easy to clean. Simply follow the Cleaning & Care Guide and enjoy your floors for years to come.

RESIDENTIAL WARRANTY

A Lifetime Residential Warranty covers the entire Ikoma range, so you can install these floors in your home with confidence as long as appropriate guidelines are followed.

COMMERCIAL WARRANTY

A 15 Year Commercial Warranty is available when Ikoma floorboards are installed in commercial settings as long as appropriate guidelines are followed.

*excluding shower bases

Ikoma Hybrid FAQs

Where does Ikoma sit in the Imagine Floors by Airstep product offering?

Ikoma is the Imagine Floors by Airstep 6mm collection of Hybrid flooring. At 1220mm it provides a standard length flooring option for home owners looking for acoustic compliant floors. This range provides a mixture of European Oak and Australian Native designs, with a total of 8 decors within the range.

What makes Ikoma special?

These 6mm thick Hybrid floors offer woodgrain embossing, a waterproof surface, acoustic compliance and a 5G locking system.

What is the 5G lock system?

5G is a locking system by Valinge. This click lock system allows for easy installation and provides superior durability for joins.

What expansion gap is needed?

A minimum 10mm - 12mm expansion gap is required when installing Ikoma Hybrid. This is standard for all floating floors.

All décors within the Ikoma collection of Hybrid flooring from Imagine Floors by Airstep have 20mm colour match scotia available to cover the expansion gap, with stair nosing also available upon request.

Where can Ikoma be installed?

Ikoma has a waterproof surface due to its Hybrid construction. As a general rule, Ikoma can be installed in all areas of your home, including wet areas. The exemption to this is shower bases, which no floorboard is suitable for.

Does Ikoma require underlay?

No. The Ikoma collection of Hybrid flooring comes with a pre-adhered underlay. We do, however, recommend the installation of A.M.B. or a similar builders plastic below your Ikoma Hybrid floors.

What is the maximum raft size for Ikoma?

Ikoma can be installed in a raft size up to 15m wide and 20m long. If these dimensions are exceeded compartmentalisation is required and expansion trims must be used. Refer to Installation Instructions for further requirements and information.

What should I do if I have further questions?

If you have further questions after reviewing these FAQs we suggest visiting the FAQ page of the Imagine Floors website by clicking or tapping the button below. If you still have questions after reviewing this page, you can contact your Sales Representative or get in touch with our Customer Service Department by calling +613 9794 3888.
